DEAR DR. MCEWAN

Re: Patient Name: **WOODSIDES HIGH VOLTAGE**
Reg # (CKC, AKC, other): TY213658 Owner: KIGHTLEY, LORI
OVC Case Number: N/A

I have reviewed the series of radiographs of the above-mentioned dog that you submitted which were made when the dog was approximately eleven months of age.

I consider both coxofemoral joints to be within normal limits for a dog of this breed and age.

Flexed lateral projections of both elbows made on the same date are also considered to be within normal limits for a dog of this breed and age.

Thank you for referring this case for evaluation. If we can be of further assistance, please contact us at 519-824-4120, ext 54161.

Yours Sincerely,

S. Nykamp, D.V.M.
Diplomate ACVR
